FRONTEND DEVELOPER | FRESHER

PROFILE SUMMARY

Dedicated Frontend Developer and BCA 2025 graduate specialized in building responsive, mobile-first applications using HTML5, CSS3, JavaScript (ES6), and React.js. I have a proven track record of integrating REST APIs to create dynamic user experiences and am proficient in modern development workflows using Git and GitHub. With a strong "learning by doing" mindset, I actively seek opportunities to solve real-world problems, learn from mistakes, and continuously refine my technical knowledge. I am deeply passionate about expanding my expertise into Full-Stack development and AI integration to evolve into a versatile, AI-driven engineer. I am eager to contribute my skills to both solo and collaborative team environments where I can provide immediate value while growing professionally with the organization.

TECHNICAL SKILLS

Frontend: HTML5 | CSS3 | JavaScript (ES6) | React.js (Basics) | Bootstrap / Responsive Design

Backend (Basic): Python (Flask) | REST APIs | JSON

Database: MySQL

Tools: Git, GitHub | VS Code | Chrome Dev Tools |

PROJECTS (GitHub Account : <https://github.com/VrushabhSalvi>)

1. Wedding Art – Business Portfolio Website

Repo: [The-wedding-art-website](#) **Live:** vrushabhsalvi.github.io/The-wedding-art-website-

Type: Academic Project (College Team Project) **Duration:** (3 months)

Tech: HTML5, CSS3, JavaScript, Bootstrap, Git, GitHub

Description: Designed and developed the complete frontend UI for a responsive business portfolio website as part of a college academic project.

Implemented layout structure, styling, and mobile-first responsiveness using HTML, CSS, and Bootstrap.

Built interactive UI features such as image gallery and filters using JavaScript.

Integrated frontend with backend APIs developed by a professional IT developer.

Collaborated in a team environment and used GitHub for version control.

2. My Portfolio Website

Repo: [Portfolio-Website-Vrushabh](#) **Live:** vrushabhsalvi.github.io/Portfolio-Website-Vrushabh

Built a fully responsive personal portfolio using HTML, CSS, JavaScript, and Bootstrap.

Implemented interactive UI, smooth scrolling, and mobile-first design. Deployed using GitHub Pages.

3. GitHub Profile Finder

Repo: [Github-Profile-Finder](#) **Live:** vrushabhsalvi.github.io/Github-Profile-Finder

Developed a real-time search application that fetches and displays live user data via the GitHub REST API.

Designed and developed a complete frontend UI using HTML5, CSS3, and Bootstrap and JavaScript to ensure all screen, responsive layout. Managed the full project lifecycle from local development in VS Code to a live production environment on GitHub Pages. Created a clean, responsive interface that provides instant feedback and handles "User Not Found" edge cases gracefully
